

NOVOTEL DARLING HARBOUR

Coupled with an unbeatable location and stunning views of the Sydney skyline, Novotel Darling Harbour has added a new dimension to the dining scene of Sydney with the opening of an exciting new restaurant and dining concept.

The multi-million dollar refurbishment includes a new restaurant and bar area featuring three distinctive cuisine offerings: a cosmopolitan Wine Bar and Charcuterie as well as two spectacular kitchen theatres featuring an Asian and OZ grill.

Both Western and Eastern cuisines are seamlessly fused within the large open dining space in a revolutionary design suited for an interactive social experience. The dramatic transformation will push the boundaries and move away from the traditional hotel restaurant and dining concept.

The design and installation by Southern Hospitality features many custom built Williams refrigeration units including two spectacular Wine Towers.
